

China Global Television Network, or CGTN, is a multi-language and multi-platform media grouping with six TV channels, and CCTV plus, which delivers visual news footage to other media organizations worldwide.

It boasts an extensive global reporting team with correspondents throughout China and around the world.

As the nucleus of the new organization, CGTN English provides live news and current affairs programming 24 hours a day—from broadcast centers in Beijing, Washington DC, and Nairobi.

CGTN English is broadcast in more than 100 countries and regions around the globe, reaching hundreds of millions. Its programs are available on selected Cable, DTH, IPTV, Terrestrial TV, websites and social platforms.

With its official motto of "See the difference," CGTN is committed to reporting global news from a different perspective, giving viewers an alternative take on the issues affecting the world today.

CLOSER TO CHINA
WITH R.L.KUHN

Closer to China with R.L.Kuhn is a pioneering weekly show on CGTN that tells China's rich, complex story through intimate, informed discussions with China's thought leaders and decision makers, many of whom do not appear in foreign media. We deal with sophisticated and sensitive issues that China faces, domestic and international. We cover China's governance, government, politics, economics, business, finance, society, diplomacy, defense, science, culture – inside accounts of what's really happening in China.

Closer to China with R.L.Kuhn engages China's thought leaders and decision makers on matters of substance. Going where few foreign media go, we tackle tough topics with candor and in depth.

We focus on three broad categories:

- China's Politics and Governance (e.g., workings of the Communist Party of China; President Xi Jinping's political philosophy, such as "Four Comprehensives"; Xi's book *The Governance of China*; the China Model; inside coverage and analysis of "Two Sessions" NPC/CPCC and the 19th CPC National Congress);
- China's Reform and Development (e.g., insights of the 13th Five-Year Plan (2016-2020); realizing a moderately prosperous society; supply side structural reform; poverty reduction; innovation; impact of judicial reform on local courts; prohibition of using organs of executed prisoners for transplants); and
- China's International Relations (e.g., Sino-US relations; "Belt and Road" initiative; geopolitics such as the South China Sea; President Xi's trips to the U.S., U.N., Russia, U.K., Europe, Asia and Africa; China's global strategy; China's image in the world).

We ask the hard, specific questions that the world wants to know about China.
